7155 & 7165

DUST COLLECTION

Actuator automatically sweeps the inside of the canister after the system is shut off.

Handy site glass lets you see when the drum is getting full.

Automatically turn the dust collector on or off from anywhere in the shop.

Upgrade to a remote control system! (Available for the 7155, 7165, 7150 & 7160)

- Cyclone separator
- 60 gallon refuse drum on casters
- Quick release for drum emptying
- 1 Micron filter canister
- Self cleaning canister

← 7150 & 7160 → DUST COLLECTION

Oliver cyclone dust collectors have all the desired features you look for when purchasing a dust collector. One micron filter, magnetic switch, drum casters, quick drum release and craftsmanship to name a few. Powerful enough to be used as a central system for the small shop or use the included splitter to connect directly to individual machines.

Quick release lever lifts the lid from the drum allowing it to be quickly rolled out and dumped.
